Cutler Luxury Amenities

As a leader in creativity and education for the beauty and fashion industries, Rodney Cutler cultivates and shapes today's foremost trends, a vision reflected in the upscale Cutler amenity line that embodies ingenuity and style. Featuring top notes of citrus and herbs balanced with mid notes of sweetgrass and base notes of vanilla, floral, and woody tones.

Formulated without parabens or artificial colorants, it is gentle on hair and skin while delivering a rich, thick texture that reflects true salon-quality care. Complementing the product is the innovative EcoLux® Air mounting system, with a drill-free adhesive bracket and tamper-resistant bottles that can be easily replaced with a key, saving housekeeping time and effort.

The Cutler line is transitioning to a sulfate-free formula with a similar design and an upgraded formulation.
